National Institute for Psychology in Israel	Young Investigator Grant Program	22/01/2018	\$30,000	2	clinical psychology	<a href="https://research.huji.ac.il/call_for_proposal/National_Institute_For_Psychology_in_Israel_-_Young_Investigator_Grant_Program">https://research.huji.ac.il/call_for_proposal/National_Institute_For_Psychology_in_Israel_-_Young_Investigator_Grant_Program</a>	<a href="http://www.psychology.org.il/apply/inforsupport.php#st">http://www.psychology.org.il/apply/inforsupport.php#st</a>	Applications for funding may be submitted by researchers associated with institutions of higher learning, accredited research institutes, and hospitals. Preference will be given to young researchers, i.e. holders of a Ph.D. or M.D degree with appointments at the level of Lecturer or Senior Lecturer (up to 3 years after the initial Senior Lecturer rank appointment). Only in extremely exceptional cases will support be granted to more senior staff, e.g. researchers from other fields who have changed their focus to psychology and lack other sources of funding.	The Institute supports research in the brain and behavioral sciences, which have direct relevance to basic and clinical psychology.
British Academy	Visiting Fellowships 2018	31/01/2018	£33,000	0.5	humanities or the social sciences: Economics, Psychology, International Relations, Sociology & Anthropology, Statistics and more	<a href="https://research.huji.ac.il/call_for_proposal/British_Academy_Visiting_Fellowships_2018">https://research.huji.ac.il/call_for_proposal/British_Academy_Visiting_Fellowships_2018</a>	<a href="https://www.britac.ac.uk/">https://www.britac.ac.uk/</a>	Suitable candidates for the Visiting Fellowships include researchers active within any discipline within the humanities or the social sciences. They may be talented early career scholars who have only recently obtained their PhD degree, mid-career researchers, or established academics with a considerable track-record of achievement.	The British Academy is providing academics based in any country overseas with the opportunity to be based at a UK higher education or other institution of their choice for up to six months. Visiting Fellows will work with colleagues at UK host institutions in order to develop new research collaborations and/or deepen existing partnerships. Candidates need not necessarily apply to develop collaboration with UK scholars active within the same discipline. These Fellowships are open also to applicants who wish to work with UK colleagues in other areas or disciplines (including scholars within the natural, medical, or engineering sciences), in a cross- or inter-disciplinary way.
Israel Ministry of Science and Technology	Call for Project Proposals - Slovenia-Israel Cooperative Scientific Research	31/01/2018	€ 100,000	2	1. Innovative Water Management and Monitoring Technologies (Including Remote Sensing) 2. Digital Aspects of Research in Social Science and Humanities	<a href="https://research.huji.ac.il/call_for_proposal/Call_For_Project_Proposals_Slovenia-Israel_Cooperative_Scientific_Research">https://research.huji.ac.il/call_for_proposal/Call_For_Project_Proposals_Slovenia-Israel_Cooperative_Scientific_Research</a>	<a href="https://www.gov.il/ho/Department/Publications/Call_for_projects_osl_fb20171108">https://www.gov.il/ho/Department/Publications/Call_for_projects_osl_fb20171108</a>	Projects must be conducted by collaborating Slovenian and Israeli scientific research teams. 2. Each research team must be led by a Principal Investigator (PI) from each country. 3. The PI must be affiliated with an academic or research institution or a professor emeritus who continues working on research in academic or research institution (hereinafter called the "Affiliated Institution").	The Slovenian Ministry of Education, Science and Sport and MOST invite Slovenian and Israeli researchers to submit joint proposals for research and innovation projects carried out by scientists from both countries. Qualifying scientific applicants from Slovenia and Israel may receive research grants, respectively, from SIRA and from MOST, according to the applicable national funding procedures and regulations. Slovenian-Israeli research teams are hereby invited to submit joint proposals for research projects in any of the following areas: 1. Innovative Water Management and Monitoring Technologies (Including Remote Sensing) 2. Digital Aspects of Research in Social Science and Humanities
Center for Digitized End of Life	תחיר בתום חיו ברבים נטום מרכז חיים	31/01/2018	\$15,000	1	מחקר ופיתוח טכנולוגיות, מדעי המחשב, מדעי החיים, מדעי הרוח	<a href="https://research.huji.ac.il/call_for_proposal/cdel_center">https://research.huji.ac.il/call_for_proposal/cdel_center</a>	<a href="http://cdel.huji.ac.il/sites/default/files/wend/files/qv_qvr_makz_num_2_018.pdf">http://cdel.huji.ac.il/sites/default/files/wend/files/qv_qvr_makz_num_2_018.pdf</a>	המחלקה והפקולטה באוניברסיטת חיפה מחקרים ופיתוח טכנולוגיות, מדעי המחשב, מדעי החיים, מדעי הרוח	במסגרת התחרות, אנחנו מחפשים מדענים ופיתוחים שיפתורו את בעיית התחילוף הטכני של החיים ופיתוח טכנולוגיות חדשות שיפתורו את בעיית התחילוף הטכני של החיים.
Gravemeyer Awards	2019 Gravemeyer Award for Less Improving World Order	31/01/2018	\$100,000	1	Political Science, International relations, economics	<a href="https://research.huji.ac.il/call_for_proposal/2019_Gravemeyer_Award_For_Ideas_Improving_World_Order">https://research.huji.ac.il/call_for_proposal/2019_Gravemeyer_Award_For_Ideas_Improving_World_Order</a>	<a href="http://gravemeyer.org/world-order/#people-45-2">http://gravemeyer.org/world-order/#people-45-2</a>	The university committee overseeing the award invites nominations from throughout the world by individual political scientists expert in the area, by professional associations of political scientists or related disciplines in international relations, by university presidents or by publishers and editors of journals and books in political science and world affairs. Ideas or achievements must have been presented or published within the past five years. Self-nominations will not be considered. The University's President ( hu@ps@savon.huji.ac.il ) nominates candidates.	presented annually to the winner of a competition designed to stimulate the recognition, dissemination and critical analysis of outstanding proposals for improving world order. Submissions may address a wide range of global concerns including foreign policy and its formulation; the conduct of international relations or world politics; global economic issues, such as world trade and investment; resolution of regional, ethnic or racial conflicts; the proliferation of destructive technologies and researches to environmental protection or other important issues; international law and organization; any combination of particular aspects of these, or any other suitable ideas which could at least incrementally lead to a more just and peaceful world order.
Freie Universität Berlin-Hebrew University Joint Seed Money Funding Scheme 2018	Freie Universität Berlin-Hebrew University Joint Seed Money Funding Scheme 2018	31/01/2018	€ 10,000	1	Economics, Psychology, International Relations, Sociology & Anthropology, Statistics and more ...	<a href="https://research.huji.ac.il/call_for_proposal/Freie_Universitaet_Berlin-Hebrew_University_Joint_Seed_Money_Funding_Scheme_2018">https://research.huji.ac.il/call_for_proposal/Freie_Universitaet_Berlin-Hebrew_University_Joint_Seed_Money_Funding_Scheme_2018</a>	<a href="https://www.fub-berlin.de/en/seed-money-funding-scheme-2018">https://www.fub-berlin.de/en/seed-money-funding-scheme-2018</a>	The supported activities should have a clearly defined focus and serve as a catalyst for the development of new joint projects, particularly for bilateral or EU funding programs. The activities can take place in Berlin or in Jerusalem; participants should include both senior and junior faculty/researchers of FUB and HUJI.	With the goal of facilitating cooperation in the framework of a strategic partnership, Freie Universität Berlin (FUB) and the Hebrew University of Jerusalem (HUJI) have established a joint seed money funding scheme. The funding shall enable FUB and HUJI faculty and researchers to identify complementary strengths, facilitate the use of synergies, and promote the development of outstanding future research projects. The joint funding scheme aims at supporting the first steps of research collaboration. The following formats are possible: Intensive research workshops Short term research stays/for young as well as established researchers Research-oriented teaching /short intensive graduate seminars Mobility for the preparation of joint research proposals
Israel Innovation Authority	KAMIN Program	01/02/2018	880,000	2	Autism, Cyber, Diabetes, Nutrition, Psychology, Public Health, Environmental Sciences, Energy and more ...	<a href="https://research.huji.ac.il/call_for_proposal/Kamin_Program">https://research.huji.ac.il/call_for_proposal/Kamin_Program</a>	<a href="https://www.isra.ac.il/eng/innovation-projects/kamin/">https://www.isra.ac.il/eng/innovation-projects/kamin/</a>	KAMIN is relevant for translational, applicative research that is a continuation of basic research that has already gone through the proof of concept phase. KAMIN is open for all areas of science and technology that have a commercial potential in the Israeli industry.	The goal of the KAMIN program is to encourage applied research in academia, that can attract the investment interests of business entities willing to cooperate with the research institution towards a commercialization agreement.
Spencer Foundation	Small Grants	01/02/2018	\$50,000	2	Education, psychology, sociology, economics, history, and anthropology Special focus on projects in areas support to NATO's operations, defense against terrorism and other threats to security. 1. Facilitate mutually beneficial cooperation on issues of common interest, including international efforts to meet emerging security challenges: a. Counter-Terrorism b. Energy Security c. Cyber Defence d. Defence against Chemical, Biological, Radiological and Nuclear (CBRN) Agents e. Environmental Security. 2. Enhance support for NATO-led operations and missions. 3. Enhance awareness of security developments including through early warning, with a view to preventing crises: a. Security-related Advanced Technology b. Border and Port Security c. Mine and Unexploded Ordnance Detection and Clearance. d. Human and Social Aspects of Security related to NATO's strategic objectives	<a href="https://research.huji.ac.il/call_for_proposal/Spencer_Foundation_Small_Research_Grants_2018">https://research.huji.ac.il/call_for_proposal/Spencer_Foundation_Small_Research_Grants_2018</a>	<a href="https://www.spencer.org/small-research-grants">https://www.spencer.org/small-research-grants</a>	Principal Investigators (PIs) applying for a Research Grant must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession. PIs must be affiliated with a college, university, research facility, school district, or cultural institution that is willing to serve as the fiscal agent if the grant is awarded. Research Grant proposals from individuals are not eligible.	his program aims to fund academic work that will contribute to the improvement of education, broadly conceived. Historically, the work we have funded through these grants has spanned a range of disciplines and areas, including education, psychology, sociology, economics, history, and anthropology, and they employ a wide range of research methods. The Small Grant program currently accepts proposals with a total budget of \$50,000 or fewer. The majority of small grant projects that are funded by the Foundation are "field-initiated" in the sense that they are not submitted in response to a Request for Proposal (RFP). In the past, we have requested that proposals within the Small Grants program be submitted within one of the areas of inquiry listed below. The Foundation does not use this information in the review process, but captures it in the application to better understand the variety of research that is proposed.
North Atlantic Treaty Organization	NATO - The Science for Peace and Security Programme (SPS) Deadlines for 2017	01/02/2018	3,000,000	3	Security related to NATO's strategic objectives	<a href="https://research.huji.ac.il/call_for_proposal/Nato_The_Science_For_Peace_And_Security_Program">https://research.huji.ac.il/call_for_proposal/Nato_The_Science_For_Peace_And_Security_Program</a>	<a href="http://www.nato.int/cos/en/nae/nae/nae.htm">http://www.nato.int/cos/en/nae/nae/nae.htm</a>	Applications are submitted jointly by an expert residing and working in a NATO country and one residing and working in a Partner country. Projects involving more than one Partner country are encouraged, as is the participation of young scientists.	The Science for Peace and Security Programme, or SPS, is a policy tool for enhancing cooperation and dialogue with all partners, based on civil science and innovation, to contribute to the Alliance's core goals and to address the priority areas for dialogue and cooperation identified in the new partnership policy. Research priorities are linked to NATO's strategic objectives and focus on projects in direct support to NATO's operations, as well as one projects enhancing the defense against terrorism and addressing other threats to security. As such, projects include explosives detection, physical protection from chemical, biological, radiological or nuclear agents, emergency preparedness; cyber defence; and environmental security.
Israel Ministry of Science and Technology	קמפיין למען המחקר והפיתוח הישראלי	01/02/2018	3,000,000	3	מחקר ופיתוח טכנולוגיות, מדעי המחשב, מדעי החיים, מדעי הרוח	<a href="https://research.huji.ac.il/call_for_proposal/Autism_Most">https://research.huji.ac.il/call_for_proposal/Autism_Most</a>	<a href="https://www.gov.il/ho/Department/Publications/Call_for_projects_osl_fb2017024_2">https://www.gov.il/ho/Department/Publications/Call_for_projects_osl_fb2017024_2</a>	מספר מוקד להשקלה בנושא, ישראלי, מאתגרת במיוחד, המנועה להשקלה בנושא, חטיבת ה-1958.	מסגרת התחרות, אנחנו מחפשים מדענים ופיתוחים שיפתורו את בעיית התחילוף הטכני של החיים ופיתוח טכנולוגיות חדשות שיפתורו את בעיית התחילוף הטכני של החיים.
EMDR Research Foundation	EMDR Research Grant Award	01/02/2018	25,000 \$	2	EMDR therapy: -Anxiety -Depression -Military PTSD -Phantom Limb Pain -To enhance recovery from the impact of cardiac events and the diagnosis and treatment of cancer Trauma -Addictions -Eating disorders -Dissociative disorders -Additional medical/somatic conditions -Suicide prevention and/or to address the impact of suicide	<a href="http://emdrresearchfoundation.org">http://emdrresearchfoundation.org</a>	<a href="http://emdrresearchfoundation.org">http://emdrresearchfoundation.org</a>	Grant awards of up to \$25,000 are available for post-doctoral students, university faculty or clinician conducting research on EMDR. EMDR is an evidence-based psychotherapy for Post-traumatic Stress Disorder (PTSD). In addition, successful outcomes are well-documented in the literature for EMDR treatment of other psychiatric disorders, mental health problems, and somatic symptoms. As an international organization the EMDR Research Foundation accepts proposals from U.S. and international researchers, however, applications must be submitted in English and budgets developed in U.S. dollars.	Proposed studies examining the effectiveness of EMDR in treating PTSD will be considered, however, priority will be placed on studies that emphasize under developed areas of knowledge such as: the underlying mechanisms of EMDR; the treatment of depression, anxiety disorders, somatic disorders, substance abuse, eating disorders, dissociative disorders; or populations such as combat veterans, children and adolescents.

Applicants must have a tenured appointment or a temporary appointment during the assessment of the proposal and for the duration of the project.</p>	<p>The Internationalisation in the Humanities grant is intended to facilitate collaboration between Dutch and foreign humanities research groups. The grant encourages international collaboration between Humanities research groups, research schools, research institutes and/or departments. The collaboration must be related to a single coherent research project. Activities eligible for funding are the initiation of an international research network, the organisation of scientific meetings and/or the exchange of researchers. Applicants should describe how the different activities for which they have requested funding contribute to a structured and coherent international collaborative project. Costs for personnel or educational activities are not eligible for funding.</p>
<p>33</p> <p>Israel Ministry of Science and Technology</p>	<p>Gender Net 2017 Call for Proposals</p>	<p>01/03/2018</p>	<p>€ 400,000</p>	<p>3 more ...</p>	<p><a href="https://research.huji.ac.il/call_for_proposal/Gender_net_2017_Call_for_Proposals">https://research.huji.ac.il/call_for_proposal/Gender_net_2017_Call_for_Proposals</a></p> <p><a href="http://gender-net-plus.eu/portal/callforunded-call/">http://gender-net-plus.eu/portal/callforunded-call/</a></p>	<p>Topics: 1) Good health and wellbeing A)Gender-based violence B)Sex, gender and aging C)Sex, gender and health 2) Infrastructure, industrialization and innovation A)Gender and new technologies B)Gender in entrepreneurship and in the innovation system 3) Climate action: Gender dimensions in climate behavior and decision-making</p>	<p>Despite efforts to reduce fragmentation across the European Research Area, the European scientific system is still facing challenges in achieving gender equality and gender mainstreaming in research and innovation. In this context, and in line with ERA policy goals and national contexts, the GENDER-NET Plus ERA-NET Coland was launched September 15, 2017 and will run until 2022. The consortium of 16 committed organisations from 13 countries aims to strengthen transnational collaborations between research programme owners and managers, provide support to the promotion of gender equality through institutional change. Furthermore, the GENDER-NET Plus consortium aims to promote the integration of sex and gender analysis into research. This integration gives new knowledge and insights, which ultimately will benefit both women and men.</p>
<p>34</p> <p>Brain and Behavior Research Foundation (NARSAD)</p>	<p>Independent Investigator Award 2018</p>	<p>05/03/2018</p>	<p>\$100,000</p>	<p>2 and research with children.</p>	<p><a href="https://research.huji.ac.il/call_for_proposal/Brain_And_Behavior_Research_Foundation_2017_Independent_Investigator_Grant">https://research.huji.ac.il/call_for_proposal/Brain_And_Behavior_Research_Foundation_2017_Independent_Investigator_Grant</a></p> <p><a href="https://www.petersons.com/brain-and-behavior-research-foundation-independent-investigator-awards-111-166436.aspx?swese-modal">https://www.petersons.com/brain-and-behavior-research-foundation-independent-investigator-awards-111-166436.aspx?swese-modal</a></p>	<p>scientists at the associate professor level or equivalent, who are clearly independent and have won national competitive support as a principal investigator. Basic and/or clinical investigators are supported, but research must be relevant to schizophrenia, major affective disorders, or other serious mental illnesses. The program is intended to facilitate innovative research opportunities. Applicants must have a doctoral - level degree (M.D., Ph.D., etc.) and, if an associate professor (or equivalent), and have received, as P.I., competitive research support at a national level such as NIH, NSF, or major foundation support. An assistant professor who is P.I. on a NIH R01 grant is eligible for the Independent Investigator grant. Restricted to students studying Neurobiology, Health and Medical Sciences, Psychology, Biology, or Social Sciences</p>	<p>The NARSAD Independent Investigator Grant provides support for investigators during the critical period between the initiation of research and the receipt of sustained funding. A two-year grant up to \$100,000 or \$50,000 per year is provided to scientists at the associate professor level or equivalent, who are clearly independent and have won national competitive support as a principal investigator. Basic and/or clinical investigators are supported, but research must be relevant to schizophrenia, major affective disorders, or other serious mental illnesses. The program is intended to facilitate innovative research opportunities.</p>

The Mind & Life 36 Institut	PEACE Grants	07/03/2018	\$100.000	Psychology, research on novel interdisciplinary approaches for investigating and nurturing wholesome mental qualities related to Prosociality, Empathy, Altruism, Compassion, and Ethics 2 (PEACE)	<a href="https://www.mindandlife.org/peace-grants/">https://www.mindandlife.org/peace-grants/</a>	To be eligible, the Principal Investigator (and Co-Principal Investigator if relevant) must have completed a terminal research/doctoral degree and sufficient training, experience and institutional resources to accomplish the proposed work. Applicants may not be actively funded through any Mind & Life research grant. Mind & Life Grants are not limited to residents of the United States. We encourage worldwide applications. Joint transnational research proposals may be submitted by research teams working in universities (or other higher education institutions), non-university public research institutes, hospitals, as well as in commercial companies, particularly small and medium-size enterprises. The NEURON funding organizations particularly wish to promote multi-disciplinary work and transnational research proposals that combine basic and clinical approaches. For many research questions, collaboration within a consortium of psychiatrists and neurologists is important and therefore encouraged, where appropriate, along with fundamental neuroscientists, and disciplines with specific expertise such as e.g. neuro-pediatricians. The grant will support research performed in academic education centers (universities and colleges) and medical research institutes in Israel. Collaborations between various academic disciplines, different Israeli research institutes, and/or with industry are highly encouraged. International collaborations will be considered. Applied approach is encouraged. We welcome basic research proposals as long as the future application of the research is clearly stated. We support studies on human subjects that ultimately target healthy populations. ✓ Lab heads and principal investigators ✓ Post-doctoral fellows ✓ PhD candidates (with supervisor approval) ✓ Joint interdisciplinary teams from any discipline are invited (neuroscience, psychology, life sciences, medicine, engineering, computer science, physics, humanities and others). Inter-disciplinary teams of researchers from exact/life science, together with researchers from social sciences and humanities are encouraged.	The Mind & Life Institute is a non-profit organization committed to building a scientific understanding of the mind and human behavior as a way to reduce suffering and promote flourishing. In particular, we promote the integration of rigorous scientific inquiry with contemplative practices and wisdom traditions by supporting academic and applied work in the contemplative sciences. As part of this mission, we offer a grant program to fund research on novel interdisciplinary approaches for investigating and nurturing wholesome mental qualities related to Prosociality, Empathy, Altruism, Compassion, and Ethics (PEACE). This funding mechanism supports research projects that advance our understanding of the mechanisms, implementation, and outcomes of contemplative strategies to promote wholesome mental qualities and positive social action. In addition, we encourage the development of measures to rigorously assess these qualities and behaviors in real-world contexts. Projects do not need to include an actual contemplative intervention, but the research must be able to inform the development of contemplative interventions, or increase our understanding of whether and how contemplative practice might promote PEACE qualities. We encourage research proposals that work across traditional disciplinary boundaries, and use methodological approaches that meet the highest standards of rigor. The aim of the call is to facilitate multinational, collaborative research projects that will address important questions related to mental health and mental disorders. These may include research on mood disorders (major depressive disorder, bipolar disorders), anxiety disorders, psychotic disorders, autism spectrum disorders, substance use disorders, and other mental disorders. Research questions may encompass the entire lifespan. Since many mental disorders develop during childhood, adolescence and early adulthood (ages 12-25 years), there is a clear interest for society to find pharmacological, psychological therapies and brain stimulation therapies, besides new diagnostic strategies, to promote mental health in this focus group.
Israel Ministry of Health 37	Call for Proposals for Research Projects on Mental Disorders	08/03/2018	\$140.000	3 mental health and mental disorders	<a href="https://research.huji.ac.il/call_for_proposal/Call_For_Proposals_For_Research_Projects_On_Mental_Disorders">https://research.huji.ac.il/call_for_proposal/Call_For_Proposals_For_Research_Projects_On_Mental_Disorders</a> <a href="http://www.neuron-eranet.eu/en/776.php">http://www.neuron-eranet.eu/en/776.php</a>	The grant will support research performed in academic education centers (universities and colleges) and medical research institutes in Israel. Collaborations between various academic disciplines, different Israeli research institutes, and/or with industry are highly encouraged. International collaborations will be considered. Applied approach is encouraged. We welcome basic research proposals as long as the future application of the research is clearly stated. We support studies on human subjects that ultimately target healthy populations. ✓ Lab heads and principal investigators ✓ Post-doctoral fellows ✓ PhD candidates (with supervisor approval) ✓ Joint interdisciplinary teams from any discipline are invited (neuroscience, psychology, life sciences, medicine, engineering, computer science, physics, humanities and others). Inter-disciplinary teams of researchers from exact/life science, together with researchers from social sciences and humanities are encouraged.	The Annual Joy grant initiative aims to promote and contribute to the emerging field of neuro-wellness. The grant supports research efforts that potentially impact human performance and well-being, improve regulation of emotions in personal and social context and increase mental and physical resilience under challenge – which are all different aspects of neuro-wellness. Neuro-wellness focuses on the research of improving or enhancing the resilience of the healthy brain towards stress, emotional imbalance and instability, and understanding their underlying mechanisms. Each year, a new grant theme will support research efforts that elucidate mechanisms that comprise and contribute to human wellness, generate new neuro-wellness-related knowledge through new research or existing data, or use state of the art scientific tools, technologies and new modalities to generate new approaches for sensing, monitoring and modulating the human brain and body.
Joy Ventures 38	Joy Ventures	15/02/2018	\$200.000	2 Psychology, Public Health, Brain Sciences, Biotechnology	<a href="https://research.huji.ac.il/call_for_proposal/Joy_Ventures_2018">https://research.huji.ac.il/call_for_proposal/Joy_Ventures_2018</a> <a href="http://joyventures.com/grants-for-neuro-wellness/">http://joyventures.com/grants-for-neuro-wellness/</a>	Scientists applying for a research grant must organize an "international research team". The Principal Applicant must be located in a member country. Specific requirements for Young Investigator Grants: all members of a Young Investigators' grant team must be within 5 years of obtaining an independent position but must have obtained their first doctoral degree (PhD, MD or equivalent) not longer than 10 years before the deadline for submission of the letter of intent.	The Human Frontier Science Program (HFSIP) is a niche program that supports innovative research into fundamental biological problems with emphasis placed on novel and interdisciplinary approaches that involve scientific exchanges across national and disciplinary boundaries. The participation of scientists from disciplines outside the traditional life sciences such as biophysics, chemistry, computational biology, computer science, engineering, mathematics, nanoscience or physics has made biological research increasingly quantitative and will continue to do so. Such collaborations have opened up new approaches for understanding the complex structures and regulatory networks that characterize living organisms, their evolution and interactions.
Human Frontier Science Program Research Grants 2019 39	Human Frontier Science Program Research Grants 2019	28/03/2018	\$1,350,000	3 Brain Sciences, Aqueina, Biotechnology	<a href="https://research.huji.ac.il/call_for_proposal/Human_Frontiers_Science_Program_Research_Grants_2019">https://research.huji.ac.il/call_for_proposal/Human_Frontiers_Science_Program_Research_Grants_2019</a> <a href="http://www.hfsp.org/funding/theses-grants/information-and-guidelines">http://www.hfsp.org/funding/theses-grants/information-and-guidelines</a>	Candidates must write out their application along the lines defined in the form with the requested attachments	The Max van Berchem Foundation, whose goal is to promote the study of Islamic and Arabic archaeology, history, geography, art history, epigraphy, religion and literature, awards grants for research carried out in these areas by scholars who have already received their doctorate.
Max van Berchem Foundation 40	Max van Berchem Foundation Grant Application 2018	31/03/2018		Islamic and Arabic archaeology, history, geography, art history, epigraphy, religion and literature	<a href="https://research.huji.ac.il/call_for_proposal/Max_Van_Berchem_Foundation_Grant_Application_2018">https://research.huji.ac.il/call_for_proposal/Max_Van_Berchem_Foundation_Grant_Application_2018</a> <a href="http://maxvanberchem.org/en/grant-applications">http://maxvanberchem.org/en/grant-applications</a>	DFF-Starting Grant is aimed at younger, very talented researchers, who at the time of the application deadline and within the last eight years have obtained their PhD or achieved equivalent qualifications, and who have demonstrated ability to carry out original research at a high, international level. The date on which you 14 were awarded the degree of PhD, as stated on the PhD diploma will be used to calculate the age of your degree. Alternatively, if this date is not stated, the date of issue of the diploma will be used.	The objective of the Sapere Aude: DFF-Starting Grant is to give excellent researchers, i.e. researchers who have achieved outstanding research results in their field, an opportunity to develop and strengthen their research ideas. The instrument also aims at promoting the mobility internationally as well as nationally among research environments, and thereby to strengthen the researchers' networks and careers. Starting Grants are targeted at top researchers who intend to gather a group of researchers and/or research students, in order to carry out a research project at a high, international level. The objective of the initiative is to develop the qualifications and competencies of the best research talents, both nationally and internationally. Sapere Aude is aimed at Danish as well as non-Danish researchers.
Sapere Aude Starting Grant (International Cooperation - Danish Research Fund) 41	Sapere Aude Starting Grant (International Cooperation - Danish Research Fund)	10/04/2018	kr. 4,100,000	4 Economics, Psychology, International Relations, Sociology & Anthropology, Statistics and more. Medical Sciences, Social Sciences, Technology and Production Sciences, Humanities, Natural Sciences	<a href="https://research.huji.ac.il/call_for_proposal/Sapere_Aude_Startin_g_Grant_international_Cooperati_on_Danish_Research_Fund">https://research.huji.ac.il/call_for_proposal/Sapere_Aude_Startin_g_Grant_international_Cooperati_on_Danish_Research_Fund</a> <a href="https://dff.dk/en/application">https://dff.dk/en/application</a>	COST Actions are Science and Technology (S&T) networks open to researchers, engineers and scholars from universities, research centres, companies, in particular small and medium-sized enterprises (SMEs), as well as other stakeholders and relevant legal entities. The proposals must include a Network of Proposers from at least 7 different COST Full or Cooperating Members amongst which a minimum number shall be from COST Inclusiveness Target Countries as detailed in Annex to the present guidelines. Israel is a COST Cooperating Member.	The Israel Institute is offering research grants of up to \$10,000 for scholars, academics, and independent researchers to conduct substantive research on issues related to modern Israel. Areas for research may include, but are not limited to, Israeli history, politics, economics, and law. The grants are aimed at facilitating research and writing that will lead to the publication of a book or a number of scholarly articles that make a serious contribution to the field of Israel Studies or promote a greater understanding of modern Israel. Successful proposals will demonstrate why a particular topic needs to be explored, what gap the research will fill, and how the research project will successfully accomplish its proposed goals. The proposals will be vetted by an independent committee of Israel Studies scholars, who will determine the awards.
COST: European Cooperation in Science and Technology 43	COST: European Cooperation in Science and Technology	20/04/2018	€ 129,000	4 Humanities, General/Other BEHAVIORAL/SOCIAL SCIENCES Science, General/Other Cooperative Science Programs Technology	<a href="http://www.cost.eu/participate/open_call">http://www.cost.eu/participate/open_call</a>	Applications must be submitted jointly by at least one Israeli and one American scientist, as required in all BSF programs. Prior cooperation between the PIs is not a prerequisite, and the establishment of new research teams is welcomed by the BSF. Israeli and American principal investigators must have obtained a PhD, MD or an equivalent degree, and must be faculty members or the equivalent of the submitting institutions. Graduate students or postgraduate fellows are not eligible to submit applications. It is allowed to hold simultaneously a regular BSF grant or a NSF-BSF grant, as well as a Transformative Science grant.	COST invites proposals for Actions contributing to the scientific, technological, economic, cultural or societal knowledge advancement and development of Europe. Multi- and interdisciplinary proposals are encouraged. The open call Action Proposal Submission, Evaluation, Selection and Approval (SESA) procedure is fully science and technology-driven and will ensure a simple, transparent and competitive proposal evaluation and selection process, reflecting the bottom-up, open and inclusive principles of COST. A new program in 'Transformative Sciences' was launched in 2010. This is a small program of up to 2 awards annually that will receive larger grants than in our regular program. To be awarded a grant in the program, a proposal must be 'transformative', in the sense that if successful, it is expected to make a very significant scientific breakthrough. BSF has adopted the NSF definition for 'Transformative Sciences', which is: "Research driven by ideas that have potential to radically change our understanding of an important scientific concept, or lead to the creation of a new paradigm, or a new field of science. Such research is characterized by its challenge to current understanding or by its pathways to new frontiers".
BSF: The U.S.-Israel Binational Science Foundation 44	BSF: Transformative Science Research grants	25/04/2018	\$300.000	3 All areas of research supported by the BSF and any combination thereof between them will be eligible for submission each year: Biomedical Engineering, Chemistry, Computer Sciences, Earth and Atmospheric Sciences, Ecology and Systematic Biology, Economics, Energy Research, Environmental Research (Air, Water and/or Soil), Health Sciences, Life Sciences, Materials Research, Mathematical Sciences, Oceanography and Limnology, Physics, Psychology, Sociology	<a href="https://research.huji.ac.il/call_for_proposal/Spencer_Foundation_Transformative_Science_Program_2017">https://research.huji.ac.il/call_for_proposal/Spencer_Foundation_Transformative_Science_Program_2017</a> <a href="http://www.bsf.org/ivdata/FormDownloadBSF-Transformative-Call.pdf?PageId=261&amp;InnerTef-ID=0">http://www.bsf.org/ivdata/FormDownloadBSF-Transformative-Call.pdf?PageId=261&amp;InnerTef-ID=0</a>	Principal Investigators (PIs) applying for a Research grant must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession. PIs must be affiliated with a college, university, research facility, school district, or cultural institution that is willing to serve as the fiscal agent if the grant is awarded. Research grant proposals from individuals are not eligible.	his program aims to fund academic work that will contribute to the improvement of education, broadly conceived. Historically, the work we have funded through these grants has spanned a range of topics and disciplines, including education, psychology, sociology, economics, history, and anthropology, and they employ a wide range of research methods. The Small Research Grant program currently accepts proposals with a total budget of \$50,000 or fewer. The majority of small grant proposals that are funded by the Foundation are "seed-funded" in the sense that they are not submitted in response to a Request for Proposal (RFP). In the past, we have requested that proposals within the Small Grants program be submitted within one of the areas of inquiry listed below. The Foundation does not use this information in the review process, but captures it in the application to better understand the variety of research that is proposed.
Spencer Foundation 45	Small Grants	01/05/2018	\$50.000	2 Education, psychology, sociology, economics, history, and anthropology	<a href="https://research.huji.ac.il/call_for_proposal/Spencer_Foundation_Small_Research_Grants_2016">https://research.huji.ac.il/call_for_proposal/Spencer_Foundation_Small_Research_Grants_2016</a> <a href="https://www.spencer.org/small-research-grants">https://www.spencer.org/small-research-grants</a>		

Denmark Ministry of Higher Education and 46 Science	International Network Programme with Denmark 2016	200,000DKK (27,000EURO)	All	<p><a href="https://research.huji.ac.il/call_for_proposals/International_Network_Programme_WiH_Denmark_2017">https://research.huji.ac.il/call_for_proposals/International_Network_Programme_WiH_Denmark_2017</a></p>	<p><a href="http://fm.dk/en/research-and-innovation/funding-programmes-for-research-and-innovation/calls2017/the-international-network">http://fm.dk/en/research-and-innovation/funding-programmes-for-research-and-innovation/calls2017/the-international-network</a></p> <p><a href="https://research.huji.ac.il/call_for_proposals/nineeth-call-for-proposals/1st_language_en/sci/en">https://research.huji.ac.il/call_for_proposals/nineeth-call-for-proposals/1st_language_en/sci/en</a></p>	<p>Recognised scientists employed at Danish universities and research institutions and recognised scientists and research experts employed in R&amp;D intensive companies and GTS Institutes in Denmark who wish to conduct network activities with researchers from China (incl. Hong Kong), India, Israel, Japan, USA, Brazil, the Republic of Korea, South Africa and Turkey.</p>	<p>The "International Network Programme" (INP) is aimed at giving researchers from both the public and the private sector an opportunity to establish networks and cooperation with researchers from countries that the Danish Agency for Science, Technology and Innovation has bilateral agreements with. Grants are given to projects where there is not already a well-established connection between the project partners. As such, the aim of the programme is to give researchers an opportunity to build the foundation for future cooperation and to explore new research partnerships of high potential value. The Danish Agency for Science, Technology and Innovation welcomes applications for projects with partners from one or more of the selected countries and containing the following activities:</p> <ul style="list-style-type: none"> <li>* Scientific workshops and conferences with participation of researchers, scientists, research experts and PhD-students from Denmark and from one or more of the selected countries.</li> <li>* Travel between Denmark and the selected countries in order to identify potential new projects and partnerships. Accommodation and meals can also be recovered by the grant.</li> </ul>
Russell Sage 47 Foundation	Immigration and Immigrant Integration	24/05/2018	\$150,000	<p>The Russell Sage Foundation currently pursues four principal programs: Behavioral Economics, the Future of Work, Race, Ethnicity, and Immigration and Social Inequality, Economics, Psychology, International Relations, Sociology &amp; Anthropology, 2 Political Sciences and more ...</p>	<p><a href="http://www.russellsage.org/funding/immigration-and-immigrant-integration">http://www.russellsage.org/funding/immigration-and-immigrant-integration</a></p>	<p>All applicants (both PIs and Co-PIs) must have a Ph.D. or comparable terminal degree, or a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. RSF particularly encourages early career scholars to apply for Presidential awards. All nationalities are eligible to apply and applicants do not have to reside in the U.S. RSF does not accept applications for Project and Presidential Awards from doctoral or other graduate students, unless specified in a social RFP.</p>	<p>The Russell Sage Foundation/Carnegie Corporation Initiative on Immigration and Immigrant Integration seeks to support innovative research on the effects of race, citizenship, legal status and politics, political culture and public policy on outcomes for immigrants and for the native-born of different racial and ethnic groups and generations. This initiative falls under RSF's Race, Ethnicity, and Immigration Program and represents a special area of interest within the core program, which continues to encourage proposals on a broader set of issues. We are especially interested in novel uses of under-utilized data and the development of new methods for analyzing these data. Proposals to conduct laboratory or field experiments, in-depth qualitative interviews, and ethnographies are also encouraged. Smaller projects might include: a pilot study, or the analysis of existing data. RSF encourages methodological variety and inter-disciplinary collaboration. Proposals for comparative, cross-national work will be considered only if they have strong implications for U.S.-centered issues. 2 stage application process. Invited proposal deadline: August 15, 2018</p>
Russell Sage 48 Foundation	Computational Social Science	24/05/2018	\$150,000	<p>The Russell Sage Foundation currently pursues four principal programs: Behavioral Economics, the Future of Work, Race, Ethnicity, and Immigration and Social Inequality, Economics, Psychology, International Relations, Sociology &amp; Anthropology, 2 Political Sciences and more ...</p>	<p><a href="http://www.russellsage.org/call-proposals-computational-social-science">http://www.russellsage.org/call-proposals-computational-social-science</a></p>	<p>All applicants (both PIs and Co-PIs) must have a Ph.D. or comparable terminal degree, or a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. RSF particularly encourages early career scholars to apply for Presidential awards. All nationalities are eligible to apply and applicants do not have to reside in the U.S. RSF does not accept applications for Project and Presidential Awards from doctoral or other graduate students, unless specified in a social RFP.</p>	<p>The Russell Sage Foundation's initiative on Computational Social Science (CSS) supports innovative social science research that brings new data and methods to bear on questions of interest in its core programs in Behavioral Economics, Future of Work, Race, Ethnicity and Immigration, and Social Inequality. Limited consideration will be given to questions that are primarily methodological, such as causal inference and innovations in data collection.</p>
Russell Sage 49 Foundation	Regular Programs (Race, Ethnicity & Immigration/ Behavioral Economics)	24/05/2018	\$150	<p>2 Social sciences, behavioral economics.</p>	<p><a href="http://www.russellsage.org/research/categories/requests-proposals">http://www.russellsage.org/research/categories/requests-proposals</a></p>	<p>All applicants (both PIs and Co-PIs) must have a Ph.D. or comparable terminal degree, or a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. RSF particularly encourages early career scholars to apply for Presidential awards. All nationalities are eligible to apply and applicants do not have to reside in the U.S. RSF does not accept applications for Project and Presidential Awards from doctoral or other graduate students, unless specified in a social RFP.</p>	<p>The Foundation's newest program on Race, Ethnicity, and Immigration, replaces two previous programs: Immigration and Cultural Contact. The new program encourages multi-disciplinary perspectives on questions stemming from the significant changes in the racial, ethnic, and immigration composition of the U.S. population. The foundation's Behavioral Economics program supports research that will broaden our understanding of the social, economic and political consequences of real-life behaviors and decisions that deviate from the neoclassical economic standards of rationality. RSF is especially interested in behavioral economics research that contributes to our understanding of topics of interest under its other programs. Invited proposal deadline: August 15, 2018</p>
Russell Sage 50 Foundation	Integrating Biology and Social Science Knowledge (iBioSS)	24/05/2018	\$150	<p>2 Social sciences, biological sciences</p>	<p><a href="https://www.russellsage.org/research/fund/bioess">https://www.russellsage.org/research/fund/bioess</a></p>	<p>All applicants (both PIs and Co-PIs) must have a Ph.D. or comparable terminal degree, or a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. RSF particularly encourages early career scholars to apply for Presidential awards. All nationalities are eligible to apply and applicants do not have to reside in the U.S. RSF does not accept applications for Project and Presidential Awards from doctoral or other graduate students, unless specified in a social RFP.</p>	<p>The initiative will support innovative social science research on social and economic outcomes that improve our understanding of the interactive mechanisms by which environmental influences affect biological mechanisms, and vice versa. This includes research that: (1) estimates how the structured nature of the social environment and intra- and intergenerational social inequalities affect biological processes; (2) identifies which indicators of biological processes interact with the social environment to affect different life domains and how; and (3) yields new conceptual frameworks that holistically characterize the complex relationships among biological, psychological and environmental factors to predict a range of behavioral and social outcomes. We are primarily interested in research that explores and improves our understanding of social and economic predictors and outcomes. This initiative is carried out in collaboration with and support from the Ford Foundation. Invited proposals deadline: August 15, 2018</p>
North Atlantic Treaty 51 Organization	NATO - The Science for Peace and Security Programme (SPS) Deadlines for 2017	01/06/2018		<p>3 Security related to NATO's strategic objectives</p>	<p><a href="https://research.huji.ac.il/call_for_proposal/NATO_The_Science_For_Peace_And_Security_Programme_SPS_Deadlines_For_2017">https://research.huji.ac.il/call_for_proposal/NATO_The_Science_For_Peace_And_Security_Programme_SPS_Deadlines_For_2017</a></p> <p><a href="http://www.nato.int/ops/en/about/en/80291.htm">http://www.nato.int/ops/en/about/en/80291.htm</a></p>	<p>Applications are submitted jointly by an expert residing and working in a NATO member state, or a partner country working in a Partner country. Projects involving more than one Partner country are encouraged, as is the participation of young scientists.</p>	<p>The Science for Peace and Security Programme, or SPS, is a policy tool for enhancing cooperation and dialogue with all partners, based on civil science and innovation, to contribute to the Alliance's core goals and to address the priority areas for dialogue and cooperation identified in the new partnership policy. Research priorities are linked to NATO's strategic objectives and focus on projects in direct support to NATO's operations, as well as one projects enhancing the defense against terrorism and addressing other threats to security. As such, projects should explore the scientific, physical protection from chemical, biological, radiological or nuclear agents; emergency preparedness; cyber defence; and environmental security.</p>
National Institutes of 52 Health	NIH Promoting Research in Basic Neuroscience R01	05/06/2018		<p>5 Psycholology, Public Policy, Social Work, Education</p>	<p><a href="https://research.huji.ac.il/call_for_proposal/NIH_Promoting_Research_in_Basic_Neuroscience_R01">https://research.huji.ac.il/call_for_proposal/NIH_Promoting_Research_in_Basic_Neuroscience_R01</a></p> <p><a href="https://grants.nih.gov/grants/notice-notices/PAS-18-483.html">https://grants.nih.gov/grants/notice-notices/PAS-18-483.html</a></p>	<p>It is recommended to submit with an American collaborator. Desk personnel assistance is required for this submission. Please contact the American desk as early as possible before submission date.</p>	<p>The goal of this Funding Opportunity Announcement (FOA) is to stimulate research addressing fundamental questions in basic neuroscience. Proposed projects can address any area of neuroscience within the missions of the participating institutes and should focus on understanding the development, the structure and/or the function of the normal nervous system. While fundamental basic research often generates insights relevant to disorders of the nervous system, this FOA is not intended to stimulate research that is explicitly disease-related.</p>
National Institutes of 53 Health	Typical and Atypical Patterns of Language & Literacy in Dual Language Learners Research Grant R01	05/06/2018		<p>5</p>	<p><a href="https://research.huji.ac.il/call_for_proposal/NIH_Typical_And_Atypical_Patterns_Of_Language_Literacy_In_Dual_Language_Learners_Research_Grant_R01">https://research.huji.ac.il/call_for_proposal/NIH_Typical_And_Atypical_Patterns_Of_Language_Literacy_In_Dual_Language_Learners_Research_Grant_R01</a></p> <p><a href="https://grants.nih.gov/grants/notice-notices/PAS-18-316.html">https://grants.nih.gov/grants/notice-notices/PAS-18-316.html</a></p>	<p>Foreign components, as defined in the NIH Grants Policy Statement, are allowed.</p>	<p>The purpose of this FOA is to support investigator-initiated R01 applications that will inform our understanding of the typical and atypical patterns of language and literacy development of dual language learners (DLLs) in the United States. Applicants are encouraged to take advantage of advances in the language sciences and related fields to identify and clarify specific cognitive, linguistic, neurobiological, and sociocultural factors associated with normal and impaired language and literacy acquisition in young DLL populations.</p>
EMDR Research 54 Foundation	\$25,000 EMDR Research Grant Award	01/07/2018	25,000 \$	<p>2</p> <p>EMDR therapy -Anxiety -Depression -Military PTSD -Phantom Limb Pain -To enhance recovery from the impact of cardiac events and the diagnosis and treatment of cancer -Trauma -Addictions -Eating disorders -Dissociative disorders -Additional medical/somatic conditions -Suicide prevention and/or to address the impact of suicide</p>	<p><a href="http://emdrresearchfoundation.org/research-grants/awards">http://emdrresearchfoundation.org/research-grants/awards</a></p>	<p>Grant awards of up to \$25,000 are available for post-doctoral students, university faculty or clinician conducting research on EMDR. EMDR is an evidence-based psychotherapy for Post-Traumatic Stress Disorder (PTSD). In addition, successful outcomes are well-documented in the literature for EMDR treatment of other psychiatric disorders, mental health problems, and somatic symptoms. As an international organization the EMDR Research Foundation accepts proposals from U.S. and international researchers, however, applications must be submitted in English and budgets developed in U.S. dollars.</p>	<p>Proposed studies examining the effectiveness of EMDR in treating PTSD will be considered, however, priority will be placed on studies that emphasize under-developed areas of knowledge such as: the underlying mechanisms of EMDR; the treatment of depression, anxiety disorders, somatic disorders, substance abuse, eating disorders, dissociative disorders; or populations such as combat veterans, children and adolescents.</p>
Minerva 55 Foundation	Minerva Genter Symposium 2019	09/07/2018	€ 30,000	<p>all areas of research</p>	<p><a href="https://research.huji.ac.il/call_for_proposal/Minerva_Genter_Symposium_2019">https://research.huji.ac.il/call_for_proposal/Minerva_Genter_Symposium_2019</a></p> <p><a href="http://www.minerva.mcg.de/genter/application.html">http://www.minerva.mcg.de/genter/application.html</a></p>	<p>Scientists from German universities and non university research institutions as well as from the seven Israeli universities are eligible for applications for a Genter Symposium. Please note that your proposal for a Genter Symposium should not involve similar/identical topics or the same group of people as previous ones (<a href="http://www.minerva.mcg.de/genter/list.html">http://www.minerva.mcg.de/genter/list.html</a>)</p>	<p>The Minerva Foundation is inviting proposals to hold a Minerva-Genter Symposium in 2017. Genter Symposia may be held in all areas of research. The aim of Genter Symposia is to initiate new collaborative efforts in fields that are not yet in the focus of German-Israeli cooperation. The Genter Symposia shall bring together Israeli scientists with colleagues from Germany and from other countries. They shall enable the scientific discourse, exchange of ideas, and new interactions in a given field of research.</p>

Spencer Foundation	Small Grants	01/08/2018	\$50,000	Education, psychology, sociology, economics, 2 history, and anthropology	<a href="https://research.huji.ac.il/call-for-proposal/Spencer_Foundation_Small_Research_Grants_2016">https://research.huji.ac.il/call-for-proposal/Spencer_Foundation_Small_Research_Grants_2016</a>	<a href="https://www.spencer.org/small-research-grants">https://www.spencer.org/small-research-grants</a>	Principal Investigators (PIs) applying for a Research Grant must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession. PIs must be affiliated with a college, university, research facility, school district, or cultural institution that is willing to serve as the fiscal agent of the grant is awarded. Research Grant proposals from individuals are not eligible.	his program aims to fund academic work that will contribute to the improvement of education, broadly conceived. Historically, the work we have funded through these grants has spanned a range of topics and disciplines, including education, psychology, sociology, economics, history, and anthropology. They employ a wide range of research methods. The Small Research Grants program currently accepts proposals with a total budget of \$50,000 or fewer. The majority of small grant proposals that are funded by the Foundation are "field-initiated" in the sense that they are not submitted in response to a Request for Proposal (RFP). In the past, we have required that proposals within the Small Grants program be submitted within one of the areas of inquiry listed below. The Foundation does not use this information in the review process, but captures it in the application to better understand the variety of research that is proposed.
Volkswagen Foundation	Experiment - In search of bold research ideas	01/08/2018	100,000	science and engineering as well as in the life sciences including behavioral biology and experimental psychology	<a href="https://research.huji.ac.il/call-for-proposal/Experiment_In_Search_of_Bold_Research_Ideas_2016">https://research.huji.ac.il/call-for-proposal/Experiment_In_Search_of_Bold_Research_Ideas_2016</a>	<a href="https://www.volkswagenstiftung.de/lladmin/download/marktaeater/MB_100_e.pdf">https://www.volkswagenstiftung.de/lladmin/download/marktaeater/MB_100_e.pdf</a>	Applicants should demonstrate Completed doctorate or superior academic qualification. Active integration within a university or an extra-mural research institution in Germany, at the latest starting with the project. Only one application per person or project team for each deadline. The same eligibility conditions apply to co-applicants and have to be respected by the proposed grant recipient. Research ideas from previous years will not be reconsidered, neither in a modified form.	The exploration of radically new ideas is not yet really subject of the established research agenda in Germany, as far as facing challenges and transforming common wisdom are concerned. This often requires to establish counterintuitive hypotheses as well as unconventional methodologies or technologies, and to focus on entirely new research approaches. The Volkswagen Foundation's funding initiative "Experiment!" tries to pave the way for fundamentally new research topics even though the outcome is indefinite.
Russell Sage Foundation	Regular Programs (Future of Work / Social Inequality / Behavioral Economics)	20/08/2018	\$150	2 Social sciences, behavioral economics.	<a href="http://www.russellsage.org/research/categories/requests-proposals">http://www.russellsage.org/research/categories/requests-proposals</a>		All applicants (both PIs and Co-PIs) must have a Ph.D. or comparable terminal degree, or a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. RSF particularly encourages early career scholars to apply for Presidential awards. All nationalities are eligible to apply and applicants do not have to reside in the U.S. RSF does not accept applications for Project and Presidential Awards from doctoral or other graduate students, unless specified in a social RFP.	The foundation's program on the Future of Work supports research on the causes and consequences of change in the quality of jobs for less- and moderately-skilled workers in the United States. We are especially interested in proposals that address important questions about the interplay of market and non-market forces in shaping the understanding of workers, today and in the future. The foundation's program on the Future of Work supports research on the causes and consequences of changes in the quality of jobs for less- and moderately-skilled workers in the United States. We are especially interested in proposals that address important questions about the interplay of market and non-market forces in shaping the wellbeing of workers, today and in the future. The foundation's Behavioral Economics program supports research that will broaden our understanding of the social, economic and political consequences of real-life behaviors and decisions that deviate from the neoclassical economic standards of rationality. RSF is especially interested in behavioral economics research that contributes to our understanding of topics of interest under its other programs. Invited proposal deadline: November 15, 2018
Russell Sage Foundation	Regular Programs (Race, Ethnicity & Immigration / Behavioral Economics)	20/08/2018	\$150	2 Social sciences, behavioral economics.	<a href="http://www.russellsage.org/research/categories/requests-proposals">http://www.russellsage.org/research/categories/requests-proposals</a>		All applicants (both PIs and Co-PIs) must have a Ph.D. or comparable terminal degree, or a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. All nationalities are eligible to apply and applicants do not have to reside in the U.S. RSF does not accept applications for Project and Presidential Awards from doctoral or other graduate students, unless specified in a social RFP.	The Foundation's newest program on Race, Ethnicity, and Immigration, replaces two previous programs: Immigration and Cultural Contact. The new program encourages multidisciplinary perspectives on questions stemming from the significant changes in the racial, ethnic, and immigrant-origin composition of the U.S. population. The foundation's Behavioral Economics program supports research that will broaden our understanding of the social, economic and political consequences of real-life behaviors and decisions that deviate from the neoclassical economic standards of rationality. RSF is especially interested in behavioral economics research that contributes to our understanding of topics of interest under its other programs. Invited proposal deadline: November 15, 2018
The John Templeton Foundation	Large Grant Program 2018	31/08/2018	More than 217,400\$	3 Science and the big questions Character virtue development Individual freedom and free market Voluntary family planning Genetics Exceptional cognitive talent and genius	<a href="https://research.huji.ac.il/call-for-proposal/John_Templeton_Foundation_Small_Grant_Program_2018">https://research.huji.ac.il/call-for-proposal/John_Templeton_Foundation_Small_Grant_Program_2018</a>	<a href="https://www.templeton.org/what-we-fund/our-grantmaking-process">https://www.templeton.org/what-we-fund/our-grantmaking-process</a>	Generally, we fund charitable entities that operate inside and outside of the United States. On rare occasions, we may fund individuals and for-profit companies doing charitable work that is consistent with our tax-exempt status.	The John Templeton Foundation serves as a philanthropic catalyst for discoveries relating to the Big Questions of human purpose and ultimate reality. We support research on questions ranging from complexity, evolution, and infinity to creativity, forgiveness, love, and free will. We encourage civil, informed dialogue among scientists, philosophers, and theologians and between them and the public at large, for the purposes of definitional clarity and new insights.
Fritz Thyssen Foundation	Fritz Thyssen Foundation - Conference Grants	31/08/2018		1 Economics, Psychology, International Relations, Sociology & Anthropology, Statistics and more ...	<a href="https://research.huji.ac.il/call-for-proposal/Fritz_Thyssen_Foundation_Conference_Grants">https://research.huji.ac.il/call-for-proposal/Fritz_Thyssen_Foundation_Conference_Grants</a>	<a href="http://www.fritz-thyssen-stiftung.de/funding/types-of-support/conferences/?L=1">http://www.fritz-thyssen-stiftung.de/funding/types-of-support/conferences/?L=1</a>	Funding is basically reserved for projects that are related to the promotion areas of the Foundation and have a clear connection to the German research system. This connection can be established either at a personal level through German scientists working on the project, at an institutional level through non-German scientists being affiliated to German research institutes or through studies on topics related thereto to German research interests. Congresses or larger conferences or sections within the framework of symposiums, annual State, Economy, Science, and Society conferences or summer schools cannot be supported.	The foundation supports scholarly events, in particular national and international conferences with the aim of facilitating the discussion and analysis of specific scholarly questions as well as fostering cooperation and networking of scholars working in the same field or on interdisciplinary topics. An application can be filed in the following areas of support: History, Language & Culture The interdisciplinary field "Image and Imagery" (State, Economy, Science, and Society), and the Natural Sciences
Google	the Google Faculty Research Awards Program	30/09/2018	\$150,000	1 Computer Science, Engineering, and related fields. Our awards tend to go to projects that are highly technical. The work funded through Faculty Research Awards is very high caliber, and research results are often published at top conferences and in top publications in Computer Science.	<a href="https://research.google.com/faculty-research.html#research-awards">https://research.google.com/faculty-research.html#research-awards</a>	<a href="http://www.google.com/faculty-research/call-for-proposal.aspx">http://www.google.com/faculty-research/call-for-proposal.aspx</a>	As part of that vision, the Google Faculty Research Awards Program aims to recognize and support world-class, permanent faculty pursuing cutting-edge research in areas of mutual interest. Ask a Google employee to champion your proposal. A Google champion or sponsor is not required to submit a proposal, but it helps ensure that your proposal is relevant and of interest to Google. The Google champion or sponsor should be: • willing participant • considered an expert in your area of research, and • familiar with your work.	The Faculty Research Awards Program, sometimes referred to as the Research Awards Program, supports academic research in computer science, engineering, and related fields. Through the program, we fund world-class research at top universities, facilitate interaction between Google and academia, and support projects whose output will be made openly available to the research community. Awards are structured as unrestricted gifts to universities and are designed to support roughly the cost of one graduate student for one year of work. Google Faculty Research Awards are structured to award funding (up to \$150,000 USD) to support one graduate student for one year and are awarded as an unrestricted gift. The award is highly competitive - only 15% of applications receive funding - and each proposal goes through a rigorous Google-wide review process.
Fritz Thyssen Foundation	Support of Projects	30/09/2018	€ 50,000	2 History, Language & Culture: The interdisciplinary field "Image and Imagery", State, Economy and Society;  Starting with the submission cycle 2016 the GIF Regular Program will be open according to a new 3-year cycle: Cycle I - Fall 2016: Medicine and Social Sciences; Medicine: Basic Research, Practical Medicine, Clinical Research, Biomedical Research etc. Social Sciences: Economics, Education, Law, Political Science, Psychology, Sociology, etc. Cycle II - Fall 2017: Life Sciences and Humanities, Cycle III - Fall 2018: Exact Sciences and Engineering/Technology	<a href="https://research.huji.ac.il/call-for-proposal/Fritz_Thyssen_Foundation_Second_2017_Call_For_Proposals">https://research.huji.ac.il/call-for-proposal/Fritz_Thyssen_Foundation_Second_2017_Call_For_Proposals</a>	<a href="http://www.fritz-thyssen-stiftung.de/funding/types-of-support/suport-of-projects/?L=1">http://www.fritz-thyssen-stiftung.de/funding/types-of-support/suport-of-projects/?L=1</a>	scholars in the humanities, social science and biomolecular fields. Higher priority will be given to proposals involving a German partner, connection with a German research institute or have high relevance to German issues. No age limit. Pre-proposals should be submitted to the Desk for European Countries, by August/January. Approved applicants may submit a full proposal to Thyssen Foundation until the deadlines. Scientists applying for a GIF Grant must hold a doctoral degree. They must be affiliated to a GIF eligible institution with a tenure track position or a contract covering the whole duration of the prospective Grant. Proposals should involve Israeli and German PIs. Priority will be given to teams who collaborate for the first time. Continuations of ongoing Grants will not be excluded; however, they will have to prove an excellent, fruitful collaboration and outstanding scientific merit. GIF prefers that in each project there will be only one Principal Investigator (PI) per institution. Additional investigators may be defined as CIs (Cooperating Investigators).	Direct support of scholarship and research with special emphasis on giving help to young scholars and scientists; support of international cooperation. Personnel costs (usually in line with the "Bundesangestelltentarif" (BAT), or, if abroad, the prevailing rates at the lowest university or research institute), Travel expenses, Office expenses for apparatus, relevant literature, Annual running-costs, particularly for supplies. Other costs (such as costs of contracts for outside services) are not covered by the Fritz Thyssen Stiftung. Full proposals with German partners should only be submitted by the German PI.
GIF (The German-Israeli Foundation for Scientific Research and Development)	2018 Call for Proposals Regular Programme - Life Sciences and Humanities	01/10/2018	€ 240,000	3	<a href="https://research.huji.ac.il/call-for-proposal/German-Israeli_Foundation_Call_For_Proposals_Regular_Programme_Life_Sciences_And_Humanities">https://research.huji.ac.il/call-for-proposal/German-Israeli_Foundation_Call_For_Proposals_Regular_Programme_Life_Sciences_And_Humanities</a>	<a href="http://www.gif.org.il/pages/default.aspx?call-for-proposal.aspx">http://www.gif.org.il/pages/default.aspx?call-for-proposal.aspx</a>	The program supports researchers within 8 years after completing their Ph.D., M.D., or equivalent degree (at the starting date of the grant, 1.1.2018), and will give these scientists an opportunity to present themselves and their research activities in the other country. Possible collaboration: No German collaborator is needed in the Young Scientists' Program	Bilateral German-Israeli research projects of science and technology for peaceful purposes only. G.I.F. projects must involve active collaboration between Israeli and German scientists. The Principal Investigators must hold a doctoral degree or equivalent. Anyone mentioned as PI or CI may not receive a salary from the G.I.F. grant. GIF prefers that there is only one PI per institution.
GIF (The German-Israeli Foundation for Scientific Research and Development)	2018 - Young Scientists' Program - Medicine, Life Sciences and Humanities	01/10/2018	€ 20,000	1 etc.): Medicine, Life Sciences, and Humanities	<a href="https://research.huji.ac.il/call-for-proposal/Young_Scientists_Program_Medicine_Life_Sciences_And_Humanities">https://research.huji.ac.il/call-for-proposal/Young_Scientists_Program_Medicine_Life_Sciences_And_Humanities</a>	<a href="http://www.gif.org.il/pages/default.aspx?call-for-proposal.aspx">http://www.gif.org.il/pages/default.aspx?call-for-proposal.aspx</a>	The program supports researchers within 8 years after completing their Ph.D., M.D., or equivalent degree (at the starting date of the grant, 1.1.2018), and will give these scientists an opportunity to present themselves and their research activities in the other country. Possible collaboration: No German collaborator is needed in the Young Scientists' Program	The GIF Young Scientists' Program aims to encourage young scientists and help them establish first contacts with potential counterparts in Israel or Germany. The program supports researchers within 7 years after completing their Ph.D., M.D., or equivalent degree (at the starting date of the grant), and will give these scientists an opportunity to present themselves and their research activities in the other country.
North Atlantic Treaty Organization (NATO) - The Science for Peace and Security Programme (SPS) Deadlines for 2017	NATO - The Science for Peace and Security Programme (SPS) Deadlines for 2017	01/10/2018		3 Special focus on projects in direct support to NATO's operations, defense against terrorism and other threats to security. 1. Facilitate mutually beneficial cooperation on issues of common interest, including international efforts to meet emerging security challenges; a. Counter-Terrorism b. Energy Security c. Cyber Defense d. Defence against Chemical, Biological, Radiological, and Nuclear (CBRN) Agents e. Environmental Security. 2. Enhance support for NATO-led operations and missions. 3. Enhance awareness of security developments including through early warning, with a view to preventing crises; a. Security-related Advanced Technology b. Border and Port Security. c. Mine and Unexploded Ordnance Detection and Clearance. d. Human and Social Aspects of Security 3. Security related to NATO's strategic objectives	<a href="https://research.huji.ac.il/call-for-proposal/NATO_Science_For_Peace_And_Security_Programme_sps_Deadlines_For_2017">https://research.huji.ac.il/call-for-proposal/NATO_Science_For_Peace_And_Security_Programme_sps_Deadlines_For_2017</a>	<a href="http://www.nato.int/sp/invitations/8591.htm">http://www.nato.int/sp/invitations/8591.htm</a>	Applications are submitted jointly by an expert residing and working in a NATO country and one residing and working in a Partner country. Projects involving more than one Partner country are encouraged, as is the participation of young scientists.	The Science for Peace and Security Programme, or SPS, is a policy tool for enhancing cooperation and dialogue with all partners, based on civil science and innovation to contribute to the Alliance's core goals and to address the priority areas for dialogue and cooperation identified in the new partnership policy. Research priorities are linked to NATO's strategic objectives and focus on projects in direct support to NATO's operations, as well as one projects enhancing the defense against terrorism and addressing other threats to security. As such, projects include explosives detection, physical protection from chemical, biological, radiological or nuclear agents, emergency preparedness, cyber defence, and environmental security.
National Institutes of Health (NIH)	Promoting Research in Basic Neuroscience R01	05/10/2018		5 Psychology, Public Policy, Social Work, Education	<a href="https://research.huji.ac.il/call-for-proposal/NIH_Promoting_Research_in_Basic_Neuroscience_R01">https://research.huji.ac.il/call-for-proposal/NIH_Promoting_Research_in_Basic_Neuroscience_R01</a>	<a href="https://grants.nih.gov/grants/submit/pa-files/PAS-18-483.html">https://grants.nih.gov/grants/submit/pa-files/PAS-18-483.html</a>	It is recommended to submit with an American collaborator. The goal of this Funding Opportunity Announcement (FOA) is to stimulate research addressing fundamental questions in basic neuroscience. Proposed projects can address any area of neuroscience within the missions of the participating institutes and should focus on understanding the development, the structure and/or the function of the normal nervous system. While fundamental basic research often generates insights relevant to disorders of the nervous system, this FOA is not intended to stimulate research that is explicitly disease-related.

Agency	Program	Start Date	End Date	Amount	Number of Awards	Eligible Disciplines	Notes
National Institutes of Health	Typical and Atypical Patterns of Language & Literacy in Dual Language Learners Research Grant R01	05/10/2018			5	2017: Humanities and Social Sciences	The purpose of this FOIA is to support investigator-initiated R01 applications that will inform our understanding of the typical and atypical patterns of language and literacy development of dual language learners (DLLs) in the United States. Applicants are encouraged to take advantage of advances in the language sciences and related fields to identify and clarify specific cognitive, linguistic, neurological, and sociocultural factors associated with normal and impaired language and literacy acquisition in young DLL populations.
Volkswagen Foundation	Niedersachsen-Lerncooperation	01/11/2018		€ 150,000	3	2018: Biological and Life Sciences, Medicine	The funding program addresses different disciplines in different years: 2017: Humanities and Social Sciences 2018: Biological and Life Sciences, Medicine 2019: Natural Sciences, Mathematics, Engineering Sciences
BSF: The U.S.-Israel Binational Science Foundation	BSF: Regular research grants	01/11/2018		200,000.00 \$	4	Psychology, Social Program (NSF-BSF)	Cooperative research is a fundamental requirement for the BSF. Open to all scientists from Israel and the USA. Applications to the BSF compete with all others in the same year, and support money is not pre-allocated to each scientific discipline. Applications must be submitted together by at least one scientist from each country, but not more than six in total. The Israeli and American principal investigators must have obtained a PhD or MD, and must be faculty members or equivalent. In mid-November of even calendar years (2014, 2016, etc.) the following areas of research will be eligible for submission: Atmospheric & earth sciences, Chemistry, Computer sciences, Ecology and systematic biology, Economics, Energy research, Environmental research (air, water, soil), Materials research, Mathematical sciences, Oceanography & limnology, Physics, Sociology, Psychology, Social Program (NSF-BSF)
BSF: The U.S.-Israel Binational Science Foundation	BSF: Start Up grants	01/11/2018		60,000.00 \$	2	Psychology, Social Program (NSF-BSF)	In mid-November of odd calendar years (2013, 2015, etc.) the following areas of research will be eligible for submission (alphabetical order): Biomedical Engineering, Health Sciences (Medicine), Life Science, Psychology. In mid-November of even calendar years (2014, 2016, etc.) the following areas of research will be eligible for submission: Atmospheric & earth sciences, Chemistry, Computer sciences, Ecology and systematic biology, Economics, Energy research, Environmental research (air, water, soil), Materials research, Mathematical sciences, Oceanography & limnology, Physics, Sociology, Psychology, Social Program (NSF-BSF)
Russell Sage Foundation	Russell Sage Foundation- Regular Program (Social Inequality and Future of Work)	30/11/2018		\$160,000	2	Political Sciences and more...	The Russell Sage Foundation currently pursues four principal programs: Behavioral Economics; the Future of Work, Race, Ethnicity, and Immigration and Social Inequality; Economics, Psychology, International Relations, Sociology & Anthropology; and Political Sciences and more... <a href="https://russellsage.org/about-us/">https://russellsage.org/about-us/</a> <a href="https://russellsage.org/press/">https://russellsage.org/press/</a>
Russell Sage Foundation	Regular Program	30/11/2018		\$130,435	2	Social Inequality / Future of Work / Race, Ethnicity & Immigration / Behavioral Economics	<a href="https://russellsage.org/press/">https://russellsage.org/press/</a> <a href="https://russellsage.org/press/">https://russellsage.org/press/</a>
DIP-German-Israeli Project Cooperation	Deutsch-Israelische Projektkooperation (DIP)	30/11/2018		€ 1.655,000	5	all scientific fields	Participant institutions in Israel are invited to submit proposals which may come from all fields of science and research. Proposals shall be so designed as to be carried out in close cooperation between the Israeli and the German project partners. They must contain a description of the joint work plan for both, the Israeli and the German side. The quality of the research work and the strength of the scientific cooperation including the exchange of scientists, in particular young researchers (PhDs/Postdocs), are the main criteria for the review and selection. Principal investigators on both sides need to have adequate working conditions over the full period of the project. <a href="https://www.dip.de/en/research-cooperation/german-israel-cooperation/in-brief/index.html">https://www.dip.de/en/research-cooperation/german-israel-cooperation/in-brief/index.html</a>
SSHRC - Social Sciences and Humanities Research Council (Canada)	Partnership Development Grants	30/11/2018		200,000.00 \$	3	areas eligible for SSHRC funding.	Humanities and Social Sciences. Partnership Development Grant proposals may involve any disciplines, thematic areas, approaches or subject areas eligible for SSHRC funding. <a href="https://www.sshrc.gc.ca/funding-programmes/programmes/partnership-development-eng.aspx">https://www.sshrc.gc.ca/funding-programmes/programmes/partnership-development-eng.aspx</a>
US AID Middle East Regional Program (MERC) 2017	USAID - Middle East Regional Program (MERC) 2017	15/12/2018		\$1,000,000	5	technology up to the research where appropriate.	MERC projects are not restricted to a particular technical sector. The program seeks applied research and technology development proposals within the broad areas of the natural, physical, and social sciences and engineering. Investigators are also encouraged to integrate social science approaches, economics and the use of computer technology up to the research where appropriate. <a href="https://research.hju.ac.il/call-for-proposal/usaidd-middle-east-regional-cooperation-program-merc-2017">https://research.hju.ac.il/call-for-proposal/usaidd-middle-east-regional-cooperation-program-merc-2017</a> <a href="https://www.usaid.gov/where-we-work/middle-east/merc-funding-process">https://www.usaid.gov/where-we-work/middle-east/merc-funding-process</a>
National Institutes of Health	Typical and Atypical Patterns of Language & Literacy in Dual Language Learners Research Grant R01	05/02/2019			5		The purpose of this FOIA is to support investigator-initiated R01 applications that will inform our understanding of the typical and atypical patterns of language and literacy development of dual language learners (DLLs) in the United States. Applicants are encouraged to take advantage of advances in the language sciences and related fields to identify and clarify specific cognitive, linguistic, neurological, and sociocultural factors associated with normal and impaired language and literacy acquisition in young DLL populations.
National Institutes of Health	NH: Promoting Research in Basic Neuroscience R01	05/02/2019			5	Psychology, Public Policy, Social Work, Education	Foreign components, as defined in the NIH Grants Policy Statement, are allowed. It is recommended to submit with an American collaborator. Desk personnel assistance is required for this submission. Please contact the American desk as early as possible before submission date. <a href="https://grants.nih.gov/grants/guide/pa-files/PAS-18-483.html">https://grants.nih.gov/grants/guide/pa-files/PAS-18-483.html</a>
Fritz Thyssen Foundation	Fritz Thyssen Conference Grants	31/05/2019			1	Economics, Psychology, International Relations, Sociology & Anthropology, Statistics and more...	<a href="https://www.fritz-thyssen-foundation.de/funding/types-of-sponsorships/conferences/">https://www.fritz-thyssen-foundation.de/funding/types-of-sponsorships/conferences/</a>
Swiss National Science Foundation (SNSF) Sinergia Programme	Swiss National Science Foundation (SNSF) Sinergia Programme	1 June and 1 December			3	All - Multi disciplinary	The Sinergia programme offers a platform for inter-, multi- and interdisciplinary projects brought into being through the initiative and collaboration of different research groups. A Sinergia grant covers personnel costs, research costs, coordination costs and, to a limited extent, investment costs. The funding period is up to 36 months and may be extended once. <a href="https://www.snf.ch/en/funding/opportunities/sinergia/Pages/default.aspx">https://www.snf.ch/en/funding/opportunities/sinergia/Pages/default.aspx</a>

The Toyota 94 Foundation	Exploring New Values for Society	Sep-18	¥2,000,000.00	Psychology, Sociology & anthropology, 2 International relations, Economics, Public Policy etc.	<a href="https://www.toyota-foundation.or.jp/en/research/01/">https://www.toyota-foundation.or.jp/en/research/01/</a>	No restrictions are placed on proposals with regard to the areas of research or the methods employed; nor is there any limitation with regard to the nationality or place of residence of the project representative or participants, or their affiliation (or lack thereof) with a university, research institute, NPO/NGO, or other organization.	Research Grant Program 2017, titled "Exploring New Values for Society", supports ambitious projects that adopt a panoramic view of the world and look generations into the future to seek new values for society by fundamentally exploring novel philosophies and arts to address difficult issues to be faced by future society; issues that are on a global scale, issues that transcend generations; and nascent problems that will only fully manifest themselves in the future. New call should be published in May.
The Andrew W. 95 Mellon Foundation	The Andrew W. Mellon Foundation - grants	All year submission		Higher Education and Scholarship in the Humanities Diversity, Arts and Cultural Heritage, Diversity, Scholarly communication, International Higher Education and Strategic Projects	<a href="https://mellon.org/grants/grant-making/policies-and-guidelines/grant-proposal-guidelines/#ProposalGuidelinesProgramArea">https://mellon.org/grants/grant-making/policies-and-guidelines/grant-proposal-guidelines/#ProposalGuidelinesProgramArea</a>	The Foundation also makes grants to organizations outside the United States that are equivalent to US public charities.	The Andrew W. Mellon Foundation supports a wide range of initiatives to strengthen the humanities, arts, higher education, and cultural heritage. Organizations in those fields can consult descriptions of the Foundation's areas of grantmaking to determine whether a project fits within the Foundation's programmatic interests and mission. Prospective grantees should review program area guidelines before inquiring about a particular project. If Foundation staff find that the project fits within the Foundation's grantmaking priorities, staff will invite a grant proposal. Once invited, grantees should be prepared to work closely with program staff in refining the proposal, often through multiple drafts. Based on the final proposal, program staff will determine whether to bring a grant recommendation to the Board of Trustees at one of its quarterly meetings (generally held in March, June, September, and December). The Foundation also invites and considers a limited number of grants in the amount of \$150,000 or less for approval by the Foundation's Officers ("Officer's Grants") between Board meetings.
Charles Koch 96 Foundation	Requests for Proposals	All year submission		Criminal Justice & Policing Reform, Toleration & Free Speech, Foreign Policy, Economic Freedom, Technology & Innovation, Corporate Welfare Reform, Foundations of Well-Being	<a href="https://www.charleskochfoundation.org/apply-for-grants/requests-for-proposals/">https://www.charleskochfoundation.org/apply-for-grants/requests-for-proposals/</a>	The Charles Koch Foundation primarily supports research and educational programs that analyze the impact of free societies, particularly how they advance societal well-being. The best way to find out if your project request is a good match with the goals and vision of the Foundation is to submit an online grant proposal. The Foundation generally supports only Internal Revenue Code Section 501(c)(3) non-profit public charities and universities that are organized and operated within the United States. However, The US desk at AR&D has signed contracts with this fund due to its IRS 501(c)(3) status	The Charles Koch Foundation focuses on a select number of programs that support social progress, well-being, and long-term prosperity. In addition to welcoming new ideas for these topics, we also invite general research proposals. The Charles Koch Foundation supports the exploration of how free societies best achieve long-term peace, civility, and well-being by enabling individuals to flourish by helping others. In order to accomplish this, the Charles Koch Foundation supports those asking pressing questions to help foster progress on critical issues. What drives long-term human flourishing? What characteristics of a society give individuals the best opportunities to improve their lives?
